OREGON

Environmental Laboratory Accreditation Program

Eurofins CEI, Inc.

NC200003

730 SE Maynard Road

Cary, NC 27511

NELAP Recognized

IS GRANTED APPROVAL BY ORELAP UNDER THE 2009 TNI STANDARDS, TO PERFORM ANALYSES ON ENVIRONMENTAL SAMPLES IN MATRICES AS LISTED BELOW :

Air	*Drinking Water*	*Non Potable Water*	*Solids and Chem. Waste*	*Tissue*
	Chemistry			

AND AS RECORDED IN THE LIST OF APPROVED ANALYTES, METHODS, ANALYTICAL TECHNIQUES, AND FIELDS OF TESTING ISSUED CONCURRENTLY WITH THIS CERTIFICATE AND REVISED AS NECESSARY.

ACCREDITED STATUS DEPENDS ON SUCCESSFUL ONGOING PARTICIPATION IN THE PROGRAM AND CONTINUED COMPLIANCE WITH THE STANDARDS.

CUSTOMERS ARE URGED TO VERIFY THE LABORATORY'S CURRENT ACCREDITATION STATUS IN OREGON.

Stephanie B. Ringsage for

Alia D. Servin, Ph.D.
Oregon State Public Health Laboratory

We are pleased to inform you that your laboratory has been granted accreditation by ORELAP in accordance with NELAP Standards. The ORELAP Certificate of Accreditation is enclosed.

To maintain accreditation, it is important to note that the laboratory must grant ORELAP personnel access to the facility during any regular scheduled work hour with or without prior notice.

Use and display of the Certificate of Accreditation

- You must post the most recent Certificate of Accreditation in a prominent place in the laboratory facility.
- You must make accurate statements concerning the parameters for which you are accredited. A Fields Of Accreditation (FOA) report has been emailed to you that lists the matrix/method/analytes for which you are accredited.
- You must not use the ORELAP Certificate, NELAP accreditation status or NELAP logo to imply endorsement by ORELAP.
- Any use of ORELAP's or NELAP's name on general literature such as catalogues, advertising, business solicitations, proposals, quotations, laboratory analytical reports or other materials, must be accompanied by the phrase "accredited in accordance with NELAP" and your ORELAP identification number.

If you choose to make reference to your ORELAP-NELAP accreditation in any literature such as catalogues, advertising, business solicitations, proposals, quotations, laboratory analytical reports or other materials, you must:

- Distinguish between the parameters for which you are accredited by ORELAP and those for which you are not accredited by ORELAP.
- Include your ORELAP identification number.

If for any reason other than expiration, the laboratory loses accreditation or withdraws from the program, the Certificate of Accreditation must be returned to ORELAP and the lab must discontinue use of all literature that contains reference to ORELAP accreditation status.

Changes in your laboratory

- You must notify ORELAP of any key changes within 30 calendar days. Such changes include, but are not limited to, key personnel, equipment, or standard operating procedures. A change in address requires that you also complete and submit a new application on-line with the ODIE (ORELAP Data Input and Edit) application.
- You must notify ORELAP of any change in ownership within 30 calendar days by completing and submitting a new application on-line with the ODIE application. The seller and buyer must also sign the ORELAP change of ownership agreement.

No application fee will be assessed for either change in address or ownership. Charges for an on-site assessment, if deemed necessary, will be invoiced to the laboratory prior to the visit.

Participation in a Proficiency Testing program

The laboratory must analyze Proficiency Testing (PT) samples as required by TNI 2009 Volume 1 Module 1, and continue to meet the quality systems standards set forth in TNI 2009 Volume 1 Module 2.

Please be aware that Requirements for Corrective Action in Volume 1, Module 1 requires laboratories, in the event of a failed PT, to perform corrective action as described in Volume 1, Module 2 and to maintain a copy of the records of the investigation of the cause and the corrective actions taken. The laboratory must pass two of the last three PTs for each analyte. Laboratories are expected to participate in the PT events approximately every six months. Failure to participate in three PT studies within eighteen months is considered a PT study failure and the laboratory is must document the missed PT study with a corrective action plan.
