

ICE CREAM

Eurofins can provide your organisation with the vital testing support required for your business.

Eurofins NZ Laboratory Services currently work with clients across practically every section of the food manufacturing industry throughout New Zealand.

Eurofins New Zealand is an innovative food industry partner providing value added support and service of testing needs to food manufacturers.

We understand that New Zealand food companies pride themselves in producing exceptional quality, high grade items for consumption in both the domestic and export markets. Our aim is to work with you in providing premium quality testing support services for your quality control requirements and brand protection needs.

Eurofins works closely with key regulatory authorities and other bodies to ensure that we are able to offer you all the latest test methods in order to keep ahead of today's strict regulatory environment.

At Eurofins we provide a comprehensive range of microbiological, pathogen and chemistry tests against the latest AOAC, APHA, USFDA standards in our IANZ accredited laboratories.

MICROBIOLOGY

- General food testing for all manufactured food and ingredients
- Shelf life studies
- Level 2 (PC2) pathogen laboratories in Auckland and Christchurch
