

Really Local. Truly Global.

We think it's important to be close to our customers, which is why you'll find Eurofins at nine locations from Auckland to Invercargill. And we're still growing - adding new capacity and logistics to make sure our world-class food and water laboratory testing is accessible to all who need it.

We offer the Red Meat Industry IANZ and MPI-RLP accredited testing covering:

- Microbiology (including APC, E. coli, top 7 STEC, Salmonella and more)
- Potable water and industrial waters
- Chemistry
- EU OMAR Groups A and B
- Process water
- Tallow, meat and bonemeal

We also offer:

- NMD sampler training and assessments

Really Local. Truly Global.

Bringing global expertise to regional New Zealand.

While our roots are local, our expertise is global. As part of a unique global network of 950 laboratories, we tap into specialist centres of excellence for the latest testing technologies, and have access to over 200,000 analytical methods, offering you specialist analyses to support your local and export testing requirements.

Choose the lab that offers:

- Competitive pricing
- Fast TAT
- Dedicated and experienced Analytical Service Managers as a single point of contact for all your day-to-day enquiries
- Real time visibility and sample tracking with our on-line customer portal
- Unparalleled service resilience
