

## 📣 ONE EGG, COUNTLESS BENEFITS!

- 🧒 Children: Supporting growth, development, and cognitive function
- 🧓 Elderly: Maintaining muscle mass and cognitive performance
- 💪 Workers & Athletes: Providing energy and supporting muscle recovery
- 🤰 Pregnant & Breastfeeding Mothers: Supporting fetal development and enhancing breast milk quality

## 🧪 NUTRITIONAL CONTENT OF EGGS

- Protein
- Minerals : P, Fe, Se, Zn
- Vitamin A, D, E, K, dan B

## 🥚 WHY CHOOSE EGGS?

Eggs are a natural superfood—nutrient-dense, easy to find, and highly affordable. Just one egg can provide essential nutrients and daily energy the body needs to function optimally!

## 📌 ENTRUST THE QUALITY OF YOUR EGGS TO US!

With more than 30 years of experience, Eurofins has the comprehensive capability to perform nutritional analysis of eggs, as well as testing for microbiological contamination, heavy metals, and other safety parameter
