Eurofins Agroscience Services are a global service provider of field, laboratory and regulatory programs. With proven expertise in managing global field studies, worker exposure studies, ecotoxicology, analytical services, physico-chemical property testing, ¹⁴C / environmental fate laboratory and field studies, the service offering is continuously developed by knowledge transfer initiatives between the Group's various centres of expertise across the globe. By acquiring a carefully selected range of CRO's, Eurofins Agroscience Services has created a unique portfolio of expertise that provides support to plant breeders, agrochemical, biopesticide, biocide and fine chemical manufacturers that spans over 25 years.
