### **Eurofins Agrosience Services announces new Regulatory Manager**

Eurofins Agrosience Services, the leading global service provider for agrochemical testing, is pleased to announce that Vincent Drèze has joined the Agrosience Regulatory Group as Business Unit Manager. This is part of the ongoing Group commitment to strengthen the management team globally.

Joining EAS Group from ISK Bioscience Europe where he was Head of Regulatory Affairs, Vincent previously worked for New Zealand EPA, Arkema France, and Nufarm SAS. His track record is exceptional, with more than 10 years' experience in regulatory affairs within the crop protection industry and leadership accountability for successfully driving a portfolio of regulatory projects together with a team of experts. Key to this success has been his strategic planning; Vincent has a proven background in proposing and implementing optimum regulatory strategies supporting marketing needs.

Friedrich Knecht, COO Agrosience Services, said of the appointment, "I am pleased that Vincent Drèze has joined us and is taking leadership of our group of regulatory experts as well as EAS Group's project management. With the experience gained during his career at agrochemical manufacturers and authorities, Vincent will drive the continued development of our regulatory consultancy service as a key element of our "EAS One-Stop-Service" concept, enabling our clients to place entire product development projects with one CRO."

#### **Notes for the editor:**

With over 25 years of experience in the crop protection industry, Eurofins Agrosience Services offers outstanding technical knowledge and project management skills. Our service offering is continuously developed by knowledge transfer initiatives between the Group's various centres of expertise across the globe.

We are experts in managing global field studies, worker exposure studies, ecotoxicology, analytical services, physico-chemical property testing, environmental fate laboratory and field studies.

By acquiring a carefully selected range of CRO's, Eurofins Agrosience Services has created a unique portfolio of expertise that provides analytical, regulatory and field support to plant breeders, agrochemical, biopesticide, biocide and fine chemical manufacturers. Eurofins Scientific is the world leader in food and pharmaceutical products testing. It is also number one in the world in the field of environmental laboratory services and one of the global market leaders in agrosience, genomics, discovery pharmacology and central laboratory services.

Eurofins Agrosience Services is part of the Eurofins Scientific network of businesses.
