

Eurofins Agrosience Services India

Introduction

Eurofins Agrosience Services India was established in 2014. The facility is located in Coimbatore (Tamil Nadu) where field trials are carried-out along with laboratory studies focused on insecticides resistance monitoring.

Onsite, at Coimbatore R&D station, there is a laboratory and insect rearing arena, office space, field trials equipment store, chemical store and weighing area, frozen storage capacity and approximately 2.5 hectares of irrigated land for specialized studies.

Offsite field studies are carried-out in farmers' fields in Tamil Nadu, Karnataka, Maharashtra, Madhya Pradesh (Main area for Soybean), Punjab and Andhra Pradesh. Expansion into Maharashtra or Punjab can be considered, if needed.

Our vision

- To provide high quality independent data for the development and registration of Agrochemicals, biopesticides, biostimulants and fertilizers
- Establish Eurofins Agrosience Services India as center of expertise to serve country needs and expansion of our business in Asia

Reliability, versatility and quality - your partner for success
