Other than as set out in the Articles, no shareholder has any specific right to elect, renew or remove Directors. In case of a vacancy of the office of a Director appointed by the general meeting of shareholders, the remaining Directors so appointed may fill the vacancy on a provisional basis. In such circumstances, the next general meeting of shareholders shall appoint a Director to fill the vacancy.

The director shall abstain from deliberating or voting on the issue concerned in accordance with applicable legal provisions. Each Director shall consult the chairman of the Corporate Governance Committee or the Chairman of the Board of Directors in the event of uncertainty as to the nature of an operation or transaction likely to create a conflict of interest for him/her.

Each Director shall undertake to dedicate the time and attention required to his/her duties, and to limit the number of his/her other professional commitments (especially offices held at other companies) to the extent required for him/her to be able to fulfil his/her duties properly.

(ii) Confidentiality

During and after their functions, the Directors are strictly bound by a confidentiality commitment regarding the content of any debates and deliberations of the Board of Directors as well as any information they have been provided by reason of their functions, excluding where such disclosure is required by a legal provision.

The Group Operating Council provides assistance to the Board of Directors in different specialised areas of expertise.

b. Composition and Appointment

The Chief Executive Officer is appointed by the Board of Directors. The Chief Executive Officer may be removed at any time by the Board of Directors. The Board of Directors shall ensure that the members of the Group Operating Council have the skills required to fulfil their responsibilities.

c. Approval of certain significant matters

The Group Operating Council meets with the Board of Directors at least once every quarter.

The functions of the members of the Group Operating Council are framed by their objectives, annual budgetary limits and a monitoring procedure for important decisions which are cascaded throughout the Group.

In the decentralized model used by Eurofins certain important or non-customary decisions are governed by an approval system. For each level of decision, the approver of important decisions is precisely defined and signatures are required.

These important decisions pertain to M&A, sites expansion, non-budgeted investments, key personnel compensation, financing and insurance policies, net working capital management, and certain large transactions with other companies outside the Group, the Group legal organisation as well as certain general commercial terms.

1.1.5 Internal control and internal audit

a. Role

Internal control in Eurofins balances the objectives of the Group, such as maximising shareholder returns through strong growth in revenues and profits, both organically and by acquisitions, building barriers to entry through investment in state-of-the-art technology, all at the same time as managing the risks inherent in the business and the protection of shareholders' interests.

Internal control aims at achieving the following objectives:

- Reliability of the accounting and financial information;
- Realisation and optimisation of operational decisions;
- Compliance with rules and regulations; and
- Safeguarding the assets of the Group.

Eurofins is the holding company at the head of the Group and has an important role to manage its investments and the financing of the activities of its subsidiaries, to provide support, to facilitate communication and to develop resources that are available Group-wide.

The decentralised organisation of the Group in autonomous clusters and business units enables the subsidiaries to make decisions at the ground level and to maintain some independence. Strategic choices are determined and approved at a central level.

The internal control process falls within this framework of a decentralised organisation in terms of roles and responsibilities, policies and procedures. This aims to assure that the Group takes the necessary measures to manage the existing and potential risks for the Group's financial position and objectives. At an operational level, the internal control procedures are disseminated by the local managers to their teams.

At a functional level, internal control aims at:

- Assuring reliable financial statements that provide a true and fair view of Eurofins' activities, liabilities and assets;
- Promoting better effectiveness by seeking and deploying best practices within the Group and by defining the directors' role and responsibilities as part of the control environment of the Group;
- Encouraging support for the managerial guidelines, the Group's procedures and any other compulsory or statutory obligation; and
- Assuring the protection of the Group's assets by spot checking the accuracy and the reliability of the accounting information during the internal audit reviews: the controls notably focus on the protection of the assets, the separation of the tasks, the respect of the internal procedures in terms of approval of investing and updating the property, plant and equipment database.

b. Functioning

Compliance with the Group's internal policies and procedures is overseen by the internal audit team. Their role is to ensure that the operations are conducted according to high standards by providing an independent, objective assurance and by advising on best practices. The Group's internal control and financial procedures are reviewed and updated on a regular basis, and are readily accessible to the relevant employees via Eurofins' intranet. The internal audit function supports the Group in accomplishing its objectives by evaluating and improving the effectiveness of risk management, controls and governance process.

1.1.6 Financial Information

a. Production of financial information

One of the main functions of internal control and the Audit Committee is to ensure that financial statements provide a true and fair view of Eurofins' activities. The financial reporting process is managed according to the Group's internal reporting systems using a dedicated software by the financial controlling team.

Regular reporting

Each subsidiary or business unit submits a pro-forma financial report on a monthly basis (income statement, balance sheet and cash flow), with additional key business metrics highlighted, such as comparable data (budget and prior periods), working capital ratios and free cash generation.

As well as being able to monitor each business units' performance, the controlling and internal control functions check the consistency and reliability of the results, along with the consistent application of the correct accounting principles applied by the different national finance directors in accordance with the Group's accounting policies.

Quarterly statutory consolidation

In addition to the monthly reporting, each subsidiary has to produce:

- a quarterly consolidation manual;
- a quarterly review of budgeted KPIs per business unit;
- a quarterly review of the overhead costs (management, sales and marketing, IT, etc) and of the capital expenditures; and
- from time to time (at least on an annual basis), a report - containing profit and loss, balance sheet, cashflow and change in equity statements - which has been subject to a limited review by the external auditors (*"réviseur d'entreprises agréé"*).

The consolidation documents are approved by the finance directors of each country, having vouched for their accuracy and the reliability of the information contained therein. A dedicated software is used in the consolidation of this information and the production of the financial statements.

b. Publication of financial information

Eurofins publishes its half-year and annual financial reports with a press release discussing the operating and financial developments in detail, with a full income statement, balance sheet and cash flow statement, as well as the relevant interim notes. In the interest of transparency and to provide sufficient visibility in terms of its progress, Eurofins also publishes revenue developments for the first and third quarter of the year, as well as some information on the trading patterns for the period.

c. Annual Budget Process

Eurofins prepares a formal budget each year, which encourages financial discipline and helps management plan activities and allocate resources accordingly. Each business unit submits the following information, which has to be authorized by the Group Operating Council and the Board of Directors:

- an analysis of the competitive landscape and Key Success Factors.
- an estimated monthly and yearly income statement for the coming year containing:
 - revenue and cost projections;
 - a detailed plan to monitor the development of personnel costs;
 - an itemised budget for capital expenditure;
 - operational KPIs;
- a balance sheet and cash flow statement per legal entity with a strong focus on the Days of Sales Outstanding and Net Working Capital in % of Revenues

A mid-term plan with a three year horizon is drawn up at the same time with a simplified income statement and specific indicators for each business unit.

1.1.7 Compliance: the Group Code of Ethics

The Group's mission, vision, leadership charter, key policies and values and the "Group Code of Ethics" determine the behaviours and professional conduct expected from employees and leaders of the Group's companies. These documents represent key Eurofins' standards for all the Directors and employees of Eurofins companies and make compliance a core responsibility for everyone within the Eurofins Group.

1.1.7.1 Group's mission, vision, and values

The Group's mission, vision, and values are made available to all Eurofins' employees through the Company's website and intranet.

"We are resolutely opposed to bribery and corruption in whatever forms it may take. (...)

It is our policy that sales of the company's products or services, and purchases and services from suppliers, are made solely on the basis of price, quality, performance, value, and for the benefit of our company. Sales or purchases should never be made as the result of giving or receiving inducement in the form of gifts, money, or entertainment from third parties, or favours in any other form. (...)"

Therefore, Eurofins, its subsidiaries and affiliates shall comply with all applicable local, national and international laws and regulations on anti-corruption wherever it does business. The same will apply to every director, officer and employee in the Group, and any third party acting on behalf of Eurofins.

1.1.7.3 Whistleblowing point of contact

Eurofins also has a whistleblowing point of contact that is readily accessible for all employees via Eurofins' intranet and also on Eurofins corporate website. This point of contact is intended to encourage and enable employees and/or external parties to confidentially raise serious concerns so that Eurofins can address and correct inappropriate conduct and actions that are not in line with Eurofins values or the Group Code of Ethics. In order to safeguard confidentiality and to operate at the highest level of trust, external attorneys have been commissioned to serve as the initial point of contact for any whistleblowing.

1.1.8 Corporate Social Responsibility

Eurofins' understanding of compliance reaches farther than mere legal compliance, and is understood in a way also comprising social and environmental aspects, as set out in the Ten Principles of the United Nations Global Compact. Therefore, Eurofins is determined to further orient its compliance efforts towards the requirements defined in the Ten Principles of Corporate Governance of the Luxembourg Stock Exchange. In its 4th version

newly issued in December 2017, its 9th Principle has been dedicated to Corporate Social Responsibility as follows:

The company shall define its corporate social responsibility with respect, including to it those responsibilities related to social and environmental aspects. It shall set out the measures taken for its implementation of that policy and shall provide for these to be adequately published.

1.1.9 Diversity

In line with the worldwide effort to increase gender diversity on the boards of directors of listed and unlisted companies, the Board of Directors increased the number of women on the Board of Directors to three during the financial year ending on 31 December 2017.

Currently, the Board of Directors is composed of three men and three women.

The Board of Directors diversity not only relates to gender, but also to the experience and nationality of its members.

For the Company and the Group, diversity means a workforce reflective of different genders, generations, cultures, professional experiences, nationalities, race, origins and all the other unique differences that make each of its employees' individuals.

To support this, Eurofins is committed to:

- having the Board of Directors composed of both men and women;
- encouraging the leaders of all Group companies to create an understanding and supportive workplace environment in which all individuals feel heard and respected, and where they can realize their personal potential regardless of their sex, age, race, colour, religion, origin and disability.

1.1.10 External Control

In addition to shares representing Eurofins' issued share capital, class A beneficiary units ("*parts bénéficiaires de catégorie A*") and class B beneficiary units ("*parts bénéficiaires de catégorie B*") conferring no right to dividends but a right to one vote will be allocated under certain conditions to holders of fully paid-up shares as provided for in the Company's Articles of Association¹ (articles 12bis.2 and 12bis.3).

A beneficiary unit having lost its voting right is automatically cancelled.

One Class B beneficiary unit may be granted to any holder of a fully paid-up share for which there is evidence of a direct or indirect entry (through a Depositary or sub-depositary) in a registered account notified to the Company for five consecutive years in the name of the same holder.

The shareholder interested by the issuance of Class B beneficiary units up to the number of his/her/its shares entered into a registered account shall apply in writing to the Board of Directors by evidencing such entry for five consecutive years on behalf of the same holder. This request shall be made to the Board of Directors of the Company not later than on 30 June 2021.

Subject to compliance with the respective conditions of issuance, the same shareholder can be granted both one Class A and one Class B beneficiary unit.

The voting right attached to the Class B beneficiary units shall expire automatically following the cancellation of the entry into the registered account by the relevant shareholder or the transfer of ownership (other than as a result of inheritance, liquidation of marital property between spouses or donation inter vivos in favour of a spouse or relative entitled to inherit or as a result of a merger or demerger of a shareholder company) of the share for which such beneficiary unit has been granted. A beneficiary unit which has lost its voting right shall be automatically cancelled.
