

## Specimen Shipment Services

### Welcome to Eurofins Agrosience Services

We are a leading provider of product development consultancy and technical support to the crop protection industry. Our technical activities involve conducting field and laboratory studies to determine the safety and efficacy of new agrochemicals and crop varieties. With over 30 years of experience, Eurofins Agrosience Services offers outstanding technical knowledge and project management skills. By acquiring a carefully selected range of CRO's, we have created a unique portfolio of expertise that provides analytical, regulatory and field support to plant breeders, agrochemical, biopesticide, biocide and fine chemical manufacturers.

### Services

Eurofins Agrosience Services can provide specimen shipment services from field test sites throughout Europe to your chosen destination. Our expert network of experienced staff manage your specimens every step of the way, ensuring they will arrive in the required condition.

## Providing specimen shipment services from test site to specific destinations

### Why choose us?

- An outstanding network of frozen ( $\geq -18^{\circ}\text{C}$ ) specimen shipments across Europe operated with a combination of our own vehicles and a well-established portfolio of accredited logistic partners.
- Our extensive structure of offices and laboratories throughout Europe enables us to store specimen's short term if required and then bulk ship to your final destination. All our frozen storage is secure and GLP compliant.
- GPS Temperature monitored and tracked shipments offering security and reassurance.
- Long term frozen specimen storage in our own dedicated GLP compliant freezers.
- Competitive and flexible terms due to the unique way Eurofins Agrosience Services operate our specimen shipments services.

- Local Eurofins staff are on-hand to advise and assist, understanding your specific requirements and providing you with bespoke solutions to suit individual logistic and business requirements.

Whatever your requirement, EAS Group is committed to working with you towards the best possible outcome.
