

Vegan Verification Testing

A new innovative programme within the Eurofins | Chem-MAP® family which risk assesses materials and components, as well as providing testing of chemicals and materials, to establish whether any animal products or by-products have been used.

Vegan Verification helps manufacturers, brands and retailers to correctly specify materials using a phased approach, covering the manufacture of materials, chemical management, risk assessment and testing to achieve vegan verification of materials.

Vegan Verification Services Offered

Strategy Support & Policy Creation.

Bill of Materials (BOM), Chemical Inventory Log (CIL) Creation & Review.

Risk Assessment of BOM & CIL & Onsite Audits.

DNA Analysis of Chemicals for Animal DNA.

Microscopy for Animal Fibres & FTIR Testing for the Presence of Animal Proteins.

Declarations of Conformity & Referrals to the Vegan Society | BeVeg

If your business is looking to develop vegan chemical management systems, you can discuss your needs with one of our consultants.

The Vegan Society

The Vegan Verification Testing programme for the apparel and footwear sector has been registered with The Vegan Society's Vegan Trademark.

The test will give manufacturers, brands, retailers, and consumers the reassurance that vegan product claims have been validated, and the materials used to develop the product have no trace of animal derivatives.

BeVeg

The Chem-MAP vegan testing programme is approved and listed with US-based company BeVeg.

BeVeg is the world's only ISO/IEC 17065 accredited vegan technical standard, trademark and programme, helping to ensure a reliable vegan trademark claim in the global marketplace. It is also accredited by the National Accreditation Centre (NAC).

Benefits of Chem-MAP® Vegan Verification

- Assurance that any chemistry used in the production of products/materials have not been derived from animal origin.
- Independent third party verification and certification process supported by DNA testing.
- Development of chemical management systems for vegan materials which goes beyond the absence of animal-derived material such as leather, feathers and fur.
- Support for brands and retailers to endorse products as 'animal-free' and 'vegan friendly'.
- Training and awareness for manufacturers, brands and retailers.
- Use of the Vegan Verification Mark and The Vegan Society Trademark.
- Use of BEVeg ISO/IEC 17065 accredited trademark.
