

Zero Waste to Landfill Certification Service

Driving environmental performance improvement in industrial waste disposal.

Reducing waste is an essential part of the sustainability commitments established by different businesses, and more businesses are making claims on zero landfill waste in their supply chains.

Zero Waste to Landfill Certification Service, delivered by Eurofins Assurance network of companies, is designed for all types of industry by our experts in field audit and environmental performance with particular knowledge in solid waste and hazardous waste areas.

Zero Waste to Landfill Certificates

The service takes a laser-focused approach to assess and verify the level of effort taken to minimise waste disposal to landfills by the businesses. Upon completion of whole audit process, the businesses will be awarded Zero Waste to Landfill Certificates, which will be valid for 12 months.

There are three levels Zero Waste to Landfill Certificates, showcasing different achievements in a quantitative manner:

- Zero Waste to Landfill Certificate: demonstration of diversion over 99% of waste to landfill
- Near Zero Waste to Landfill Certificate: demonstration of diversion 95% to 99% of waste to landfill
- Advanced Waste Diversion Certificate: demonstration of diversion 85% to 95% of waste to landfill

Assessment criteria of Zero Waste to Landfill Certification

The service assessment covers a wide scope of criteria so as to generate a holistic view of the business' performance, including landfill diversion data, documented waste management processes and procedures.

Apart from site visits, pre-assessment may be required in this Zero Waste to Landfill Certification Service and the businesses will be requested to provide certain documents around the landfill scopes to facilitate audit planning and preparation. As in other audit activities, reports carrying findings and non-conformities will be issued. The businesses will be expected to improve all major non-conformities or the Zero Waste to Landfill Certificate will not be issued.

Supporting your environmental improvement journey

By choosing our Zero Waste to Landfill Certification Services, you can

- Substantiate your Zero Waste to Landfill claim to avoid regulatory non-compliance with fact-based reports, findings and actions.
- Establish higher transparency and brand integrity to internal and external stakeholders with the certificates awarded.
- Leverage effectively Eurofins Assurance network of companies' expertise and programme, eliminating the huge amount of effort required to develop a new one on your own.
- Foster better partnership and understanding with your vendors and employees through collaboration in the audit processes.
