

# Global, insightful ADC Bioanalysis from the Large Molecule Experts

## Bioanalytical Services

Eurofins is a global large molecule bioanalytical and biomarker service organization. With over twenty five years of experience supporting early discovery to large multi-center Phase III clinical trials for small to large sponsors, we offer industry-leading capacity while maintaining client-focused flexibility. Sites in St. Charles, USA, and Oxford, UK provide bioanalytical and biomarker services with regulatory expertise across multiple geographies, including GxP and CLIA capabilities.

## Immunogenicity

- ADA for antibody component, linker and/or drug by LBA
- Assay development, method transfer, validation. Cut-point calculation
- Screen, Confirm, Titer. Advanced methodologies to address drug tolerance and soluble target interference
- Advanced cell based laboratory dedicated to GLP NAb assay development and sample analysis
- Experience and capacity for large volume sample analysis

## Pharmacokinetics

- PK of conjugated antibody and/or total antibody
- Large molecule specialists, capacity for large volume sample analysis
- Clinical and Pre-clinical PK studies
  - Exploratory / GxP
- Latest platforms including GyroLab and Singulex
