

Eurofins announces the cancellation of 6.163m repurchased shares

1 April 2026

Eurofins Scientific SE (the “Company” or “Eurofins”) (EUFI.PA) announces that its Board of Directors has decided on the cancellation of 6,163,000 shares, representing 3.38% of the Company’s share capital, that were repurchased as part of its share buyback programmes, which began in October 2022.

The cancellation of shares is in line with, among other objectives, the Company’s intention to reduce the share capital as authorised by shareholders at the Annual General Meeting held on 24 April 2025.

Following this cancellation of repurchased shares, which is effective as of 31 March 2026, the total number of Eurofins shares outstanding is now 176,000,000.

About Eurofins – the global leader in bio-analysis

Eurofins is Testing for Life. The Eurofins Scientific SE network of independent companies believes that it is a global leader in food, environment, pharmaceutical and cosmetic product testing and in discovery pharmacology, forensics, advanced material sciences and agrosience contract research services. It is also one of the market leaders in certain testing and laboratory services for genomics, and in the support of clinical studies, as well as in biopharma contract development and manufacturing. It also has a rapidly developing presence in highly specialised and molecular clinical diagnostic testing and in-vitro diagnostic products.

With over 65,000 staff across a decentralised and entrepreneurial network of more than 950 laboratories in over 1,000 companies in 59 countries, Eurofins offers a portfolio of over 200,000 analytical methods to evaluate the safety, identity, composition, authenticity, origin, traceability and purity of a wide range of products, as well as providing innovative clinical diagnostic testing services and in-vitro diagnostic products.

Eurofins companies’ broad range of services are important for the health and safety of people and our planet. The ongoing investment to become fully digital and maintain the best network of state-of-the-art laboratories and equipment supports our objective to provide our customers with high-quality services, innovative solutions and accurate results in the best possible turnaround time (TAT). Eurofins companies are well positioned to support clients’ increasingly stringent quality and safety standards and the increasing demands of regulatory authorities as well as the evolving requirements of healthcare practitioners around the world.

The Eurofins network has grown very strongly since its inception and its strategy is to continue expanding its technology portfolio and its geographic reach. Through R&D and acquisitions, its companies draw on the latest developments in the field of biotechnology and analytical chemistry to offer their clients unique analytical solutions.
