

Food Label Reviews

With many years of industry leading experience, Eurofins Experchem Laboratories Inc. can help put your company's concepts and ideas into action.

The food label is one of the most important and direct means of communicating product information to consumers, allowing them to differentiate between individual foods and brands to make informed choices.

Our dedicated and qualified team of regulatory professionals can assist you in reviewing your food product labels for completeness and regulatory compliance, including:

- Core Labelling Requirements (Net quantity, Fortification, Additives, Country of Origin, etc.)
- Assessing and Designing the Nutrition Facts Table
 - o Nutrition Facts Table layout compliance
 - o Determination of nutritional values
 - o Type size, type style and rule weight compliance
- Nutritional Claims (Organic, Advertising, Allergens, Health Claims, etc.)
- Food-Specific Labelling Requirements (Confectionary, Food for Special Dietary Needs, Grain & Bakery Products, Processed Foods, Fruits & Vegetables, Beverages, etc.)
