## VIRTUAL PROFICIENCY TESTS

Virtual proficiency tests are often used in circumstances when it is not practical or feasible to test a sample, or where a specific scenario is being tested and participants are required to examine an identical set of materials (image or documentation) to remove any sample variation from the assessment.

Our Virtual proficiency programme covers enumeration of target organisms and calculation of the level of these from the images provided. We also have PTs for the identification of viral plant pathogens from the

Note: The information in this price list is designed to assist you in choosing proficiency tests to meet your needs. Whilst every care has been taken in producing this information, we do not guarantee its accuracy. The Fapas® website is the definitive source of information about our proficiency tests. Orders are subject to the Fapas® terms and conditions, which are available on our website. Please check the website before placing your order.

You will not receive any physical deliveries for Virtual PTs; all necessary documentation or data will be downloaded from the secure website.
