June 6, 2022

Dear Laboratory Manager:

Your fiscal year 2023 (FY23) laboratory certification renewal application has been processed and a Certificate and Annual Certified Parameter List (ACPL) that reflects the current status of your facility are enclosed. If there are any discrepancies, please contact your Laboratory Certification Officer to verify information and make arrangements for a new ACPL. If the Office of Quality Assurance (OQA) does not receive documentation of any discrepancies before July 11, 2022 this ACPL will be considered final and any changes received thereafter will be treated as a modification application.

As noted in the FY23 Important Notice provided to you in February 2022, the USEPA promulgated a new Method Update Rule (MUR) at 40 CFR Part 136 and Part 141. The MUR replaced some outdated method versions with more current versions of those methods. Laboratory ACPLs have been automatically updated to reflect the approved methods included in the MUR, where applicable. The updated method is listed with the same status as the previous version of that method, and all outdated method references have been removed from all ACPLs and will no longer be offered for certification. Laboratories shall ensure the requirements of the methods listed on their ACPLs are implemented as of July 1, 2022. Please check your ACPLs to verify that you have the new updated methods listed. A list of the updated methods can be found by visiting the OQAs bulletin board website at <https://www.nj.gov/dep/enforcement/oqa/bboard.html>.

Effective with receipt of this letter, your facility's ACPL is valid through June 30, 2023. Both the Certificate and ACPL shall be conspicuously displayed at your facility in a location on the premises that is visible to the public.

As always, we are available to discuss any comments or questions. Please do not hesitate to contact your laboratory certification officer or me.

Sincerely,

Michele M. Potter
Manager

Bill Reeves
Laboratory Manager
Eurofins Eaton Analytical LLC (South Bend)
110 South Hill St.
South Bend, IN 46617

Dear Mr. Reeves:

Re: Laboratory Certification ID # IN598

Your Fiscal Year 2023 Annual Certified Parameter List (ACPL) has been updated to reflect the current status of your facility. If there are any discrepancies, please contact your Laboratory Certification Officer to verify information and make arrangements for a new ACPL. Please find enclosed an updated ACPL.

If this office can be of any further assistance, please contact your certification officer or me at (609) 292-3950.

Sincerely,

Michele M. Potter
Manager
