Eurofins Lancaster Laboratories Receives National Designation as Best Workplaces for CommutersSM in 2018

Lancaster, PA, February 1st 2018 – Eurofins Lancaster Laboratories has been named one of the Best Workplaces for CommutersSM in 2018 for offering exceptional employee-provided commuter benefits that meet the National Standard of Excellence criteria.

“Eurofins Lancaster Laboratories is on the cutting edge of a national movement,” said Julie Bond, Program Manager, Best Workplaces for Commuters. “They have listened to their employees’ challenges with traffic congestion and their concerns over reducing emissions. By offering a range of commuter benefits such as establishing on-site bus shelters, carpooling programs and access to Emergency Ride Home programs, Eurofins Lancaster Laboratories gives its employees the support they need to get to and from work so they can be at their best. These benefits are good for the company and its employees.”

Eurofins Lancaster Laboratories is among a select group of workplaces in the United States that have committed to employee-provided commuter benefits that result in at least 14 percent of their employee base not driving alone to work within a 12-month period. Eurofins Lancaster Laboratories offers employees several commuter benefit options, including:

- Carpool matching program
- Emergency Ride Home program
- Enterprise Rideshare vanpool program
- Preferred parking for carpooling and vanpooling
- Quarterly rewards for green commuters

“As one of the largest employers in Lancaster County, it is our responsibility to provide environmentally conscious choices in an effort to be good stewards to our environment,” said Neal Salerno, President, Eurofins Lancaster Laboratories. “While we continue to make significant investments in our Sustainability Initiatives Program, it is the Eurofins team that I’m proud of for fully embracing these earth-friendly business practices, including carpool, rideshare, and other green travel modes. We strive to do the right thing and reduce our carbon footprint every day. We help the largest global BioPharmaceutical and Environmental firms make the world healthier and safer, and I’m happy we mirror that social responsibility right here at home.”

The Best Workplaces for Commuters program offers designated organizations access to a range of support services to assess and promote non-driving commuting of employees, including organizational assessment and implementation tool-kits, web-based tools and webinars, staff training, and information exchange.

About Eurofins Lancaster Laboratories

<https://www.eurofinsus.com/lancaster-labs/>

Founded in 1961, Eurofins Lancaster Laboratories is a global leader in bio/pharmaceutical laboratory services, providing innovative and timely scientific solutions that enable customers to better manage the drug development process. Eurofins Lancaster Laboratories Environmental is the largest single-site environmental laboratory in the U.S. which supports the analytical testing needs of the largest industrial companies, consultants and government agencies.

Eurofins Lancaster Laboratories believes it's important to be good corporate citizens and help to make our communities a better place to live and work and implements environmentally conscious choices throughout its organization in an effort to reduce impact on the environment. In 2009, Eurofins formed a Green Team which is comprised of environmentally conscious employees who work together to reduce consumption, encourage recycling, promote conservation and educate the workforce for the goals of improving the efficiency, reducing costs and minimizing the environmental impact of operations.

About Best Workplaces for CommutersSM

Best Workplaces for CommutersSM is the national authority on recognizing and assisting workplaces that provide exceptional commuter benefits to employees. More than a recognition program, Best Workplaces for Commuters program provides support needed to create, sustain an employee-provided commuter benefit program, including online assessment tools, advisory services, case studies, tool-kits, web-based tools, webinars and training. Best Workplaces for Commuters represents over 200 workplaces with Best Workplaces for Commuters designation representing over 734,000 employees. The Best Workplaces for Commuters program is managed by the [Center for Urban Transportation Research \(CUTR\)](#) at the University of South Florida with support from the National Center for Transit Research (NCTR) and the Florida Department of Transportation (FDOT). About Center for Urban Transportation Research (<https://www.cutr.usf.edu/>)

The Center for Urban Transportation Research (CUTR) at the University of South Florida, established in 1988, is an internationally recognized resource for policymakers, transportation professionals and the public. CUTR provides high quality, objective expertise in the form of insightful research, in-depth policy analysis, comprehensive training and education and effective technical assistance that translates directly into benefits for CUTR's project sponsors. CUTR's faculty of 38 full-time researchers and 79 students, combines academic knowledge and extensive "real world" experience in developing innovative, implementable solutions for all modes of transportation. The multidisciplinary research faculty includes experts in economics, planning, engineering, public policy and geography. CUTR receives over \$19 million per year in contracts and grants to support its research, education, training and technical assistance missions. CUTR also is the home for the National Center for Transit Research and the National Bus Rapid Transit Institute.
