Mr. Piechocki,

The Drinking Water Laboratory Certification Program (DWLCP) has reviewed Eurofins Eaton Analytical's application for New Mexico (NM) drinking water laboratory certification submitted June 5, 2018.

DWLCP accepts Eurofins Eaton Analytical's primary Oregon NELAP drinking water certification, certificate number 4074-007, for reciprocity drinking water certification in NM. Eurofins Eaton Analytical's NM drinking water certification is valid only for the list of methods and analytes in the attached NM laboratory scope of accreditation.

The attached NM certification to perform drinking water analysis in compliance with the Federal Safe Drinking Water Act (SDWA), pursuant to 40 CFR Part 141, and the New Mexico Environment Department (NMED) Drinking Water Bureau (DWB) Regulations for regulated contaminants is valid from September 17, 2018 until September 16, 2019. It is Eurofins Eaton Analytical's responsibility to reapply for certification renewal in a timely manner before expiration, to continue performing drinking water analyses for SDWA compliance in NM. Eurofins Eaton Analytical must advise the DWLCP of any major change in personnel, equipment, laboratory location, or accreditation by the State of Oregon within 30 days of the change and continue to provide successful annual performance evaluation results to maintain certification. Additionally, Eurofins Eaton Analytical must also maintain the ability to successfully upload results to NMED/DWB's database of record at time of upload, for any samples analyzed for Public Drinking Water Systems regulated by NMED/DWB.

The DWLCP reserves the ability to reject drinking water certification renewal requests for any lab that does not analyze compliance drinking water samples in NM.

Sincerely,

Bethany Anderson  
Lab Certification Officer
