Dear Mr. Haley:

SUBJECT: Recognition of Certification for Radiological Testing

Eurofins Eaton Analytical, Inc. – Monrovia certification status with the California Department of Public Health, Environmental Laboratory Accreditation Program and other information submitted to this office by your laboratory has been reviewed. Based on this information, the Michigan Department of Environmental Quality (DEQ) will recognize results generated by your facility for the radiochemistry parameters listed on your certification from the California Department of Public Health, Environmental Laboratory Accreditation Program.

Please note the State of Michigan does not certify laboratories for radiochemistry analyses. This letter only serves as recognition of your facility, so you may analyze drinking water samples originating in the State of Michigan. To maintain recognition status, you must continue to comply with all the requirements of your certification for radiochemistry analysis from the California Department of Public Health, Environmental Laboratory Accreditation Program. In addition, your laboratory's recognition status in Michigan is contingent on your laboratory submitting to this office acceptable proficiency test sample results per year for each method/analyte combination which recognition is sought.

This recognition will expire on February 1, 2021. Once the laboratory has completed the certification process with the California Department of Public Health, Environmental Laboratory Accreditation Program forward a copy of any on-site assessment reports issued with the Laboratory's corrective action reply and any radiological certifications issued. An updated letter will be issued from this office at that time. If you have questions or comments regarding this information, please contact me by phone at 517-335-9219 or by email at lundyg@michigan.gov.

Sincerely,

Gregg A. Lundy

Our acceptance of the results and certification of Eurofins Eaton Analytical, LLC – Monrovia is contingent on your continued certification by the State of California Department of Public Health. In addition, your laboratory's certification in Michigan is contingent on your laboratory submitting to this office at least one full set of acceptable proficiency test results per year throughout the certification period and the results of any on-site inspections conducted by the State of California or its agents.

Our certification of your facility will expire on March 17, 2020. Your certification fees are paid until March 17, 2020. Please forward your certificates and on-site inspection report once you renew your certification in your home state. You will be reissued reciprocal certification for the State of Michigan without charge until the expiration date of your home state exceeds the “Fees Paid to Date” on your Michigan certification. Seven months in advance of your “Fees Paid to Date” you will be sent a certification renewal package and assessed the fee for the upcoming three-year period. Certification fees are non-refundable.
