

# HOW TO BECOME FSSC 22000 CERTIFIED

## A EUROFINS GUIDED TOUR

1.

### LEARN ABOUT THE SCHEME

- Explore ISO 22000:2018, the applicable prerequisite program (PRP) specification (ISO/TS 22002-1:2013, ISO/TS22002-4, ETC)  
Not sure which PRP specifications are right for your facility? We're happy to assist!

- Access FSSC 22000 version 5, part II requirements for certification at [www.fssc22000.com](http://www.fssc22000.com)
- View the ISO library at [www.iso.org/store.html](http://www.iso.org/store.html)
- Take the Eurofins FSSC 22000 training course

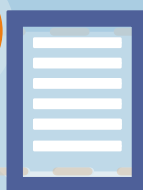

3.

### VERIFY READINESS

- Self audit
- Eurofins pre-assessment

2.

### IMPLEMENT

- Gap analysis
- Custom consulting

4.

### CERTIFY

- Request a quote: [auditing@eurofinsUS.com](mailto:auditing@eurofinsUS.com)
- Schedule audit dates  
Stage I  
Stage II

## ADDITIONAL SERVICES & TRAINING

Eurofins can conduct any training course on site; we also provide training in public venues.  
[Click here to view the training course calendar.](#)

### FSSC 22000 Training Course

Discuss scheme requirements for FSSC 22000; understand the requirements of the ISO 22000 food safety management system; and discuss and explore implementation of ISO 22002, the prerequisite programs for food manufacturers.

### HACCP/PCQI

Our courses are recognized by the International HACCP Alliance and the Food Safety Preventive Controls Alliance (FSPCA).

### Internal Food Safety Auditor Training

Internal audits are a requirement of all food safety certification schemes including SQF, BRC, and FSSC 22000. Become a qualified auditor and lead your team in properly conducting essential and dynamic self-assessments.

### Additional Resources

Look to our Resources page for additional expertise—Eurofins scientific publications, whitepapers, webinars, and guidelines can help you stay on the leading edge of the food safety industry.

### Pre-Assessments

This is a great tool to verify the site's readiness for the audit—think of a pre-assessment as a "practice audit." A Eurofins FSSC 22000 auditor will visit your site and conduct an assessment to the actual FSSC 22000 audit criteria. Nonconformances are identified, and your team can identify corrective actions prior to the actual audit.

### Gap Analysis

Our FSSC 22000 consultants conduct an assessment to the standard, identify nonconformances, and identify practical solutions with implementation recommendations. You'll receive a detailed report of the findings, recommendations, and an action plan for implementation.

### Personalized Service

Today's complex food supply chain has led many of the world's major food retailers to require their suppliers to meet specific food safety certification standards, including Global Food Safety Initiative (GFSI) schemes. Eurofins' teams of talented auditing experts will partner with your team to identify the best food safety certification scheme to help you meet those standards.

Train smart. Let's find your solution.
