September 27, 2019

Dave Wunderlich
Eurofins Frontier Global Sciences, LLC
5755 8th Street East
Tacoma, WA 98424

Dear Dave Wunderlich:

Thank you notifying us of your laboratory relocation. Attached is a your Certificate and revised Scope of Accreditation effective September 3, 2019.

Your WA Laboratory accreditation is based in part on your Louisiana NELAP accreditation. The following changes have been made to your laboratory scope:

All parameters accredited through third party recognition have been changed to the status of interim, pending an onsite audit by Louisiana NELAP.

All parameters accredited directly through WA have been changed to the status of interim, pending an onsite audit by the WA State Laboratory Accreditation unit.

Renewal of accreditation is based in part on review of your lab's performance over the past year as evidenced by participation in proficiency testing (PT) studies. In general, full accreditation is awarded for those parameters for which the two most recent PT results, if applicable, were rated satisfactory. Provisional accreditation is awarded if the latest of the two most recent PT results was rated "Not Acceptable" or only one PT result was submitted during the past twelve months. Accreditation is withheld for those parameters for which the two most recent PT results were rated "Not Acceptable" or no PT results were submitted during the past twelve-months.

As a reminder, continued participation in the Ecology Lab Accreditation Program requires the lab to:

- Submit a renewal application and fees annually
- Report significant changes in facility, personnel, analytical methods, equipment, the lab's quality assurance (QA) manual or QA procedures as they occur
- **Participate in proficiency testing studies semi-annually, with the following exception: For each parameter where all PT results were satisfactory, you are required to submit only one PT result over this next year, and in subsequent years, as long as the results are satisfactory.**
- Submit copies of current third-party Scopes of Accreditation when they are available.

If you have any questions concerning the accreditation of your lab, please contact Rebecca Wood at (360) 871-8811, fax (360) 871-8849, or by e-mail at rebecca.wood@ecy.wa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Rebecca Wood", with a stylized flourish at the end.

Eurofins Frontier Global Sciences, LLC
Tacoma, WA

has complied with provisions set forth in Chapter 173-50 WAC and is hereby recognized by the Department of Ecology as an ACCREDITED LABORATORY for the analytical parameters listed on the accompanying Scope of Accreditation. This certificate is effective September 3, 2019 and shall expire July 13, 2020.

Witnessed under my hand on September 27, 2019

WASHINGTON STATE DEPARTMENT OF ECOLOGY

ENVIRONMENTAL LABORATORY ACCREDITATION PROGRAM

SCOPE OF ACCREDITATION

Eurofins Frontier Global Sciences, LLC

Tacoma, WA

is accredited for the analytes listed below using the methods indicated. Full accreditation is granted unless stated otherwise in a note. EPA is the U.S. Environmental Protection Agency. SM is "Standard Methods for the Examination of Water and Wastewater." SM refers to EPA approved method versions. ASTM is the American Society for Testing and Materials. USGS is the U.S. Geological Survey. AOAC is the Association of Official Analytical Chemists. Other references are described in notes.

Matrix/Analyte	Method	Notes
<i>Air</i>		
Mercury	EPA 1631B	7
Mercury	FGS-136	2,5,6

Accredited Parameter Note Detail

(1) Accreditation is limited to liquid samples only. (2) Accreditation based in part on recognition of Louisiana NELAP accreditation. (3) Accreditation also includes FGS-059, which is the laboratory modification of EPA 7062. (4) Accreditation also includes FGS-060, which is the laboratory modification of SM 3500-Cr B. (5) Includes accreditation for EPA Method PS-12B and EPA Method 30-B. (6) Interim accreditation pending the successful completion of an on-site audit by Louisiana NELAP to verify method capabilities. (7) Interim accreditation pending the successful completion of an on-site audit by WA to verify method capabilities (WAC 173-50-100).
