RE: Drinking Water Laboratory Certification

*Hafa Adai* Ms. Kamila:

***Buenas yan Saluda.*** Guam Environmental Protection Agency (Guam EPA) is pleased to grant your facility and qualified personnel “Certification through Reciprocity” (GEPA Certificate No. 26-07r) for the EPA Method 100.2 Asbestos. This is based on the review of your submitted documents namely; current certificate from the New York State Department of Health Certificate dated April 1, 2027, Onsite audit reports by the New York Environmental Laboratory Approval Program (NYELAP) dated April 7-9, 2026, and successful NYELAP Proficiency Testing results for the past year.

This letter serves as notice that your facility and qualified personnel are allowed to perform analysis of Guam originated samples under the Guam Safe Drinking Water Act (Title 10 Guam Code annotated Chapter 53 Section 53104) and the National Primary Drinking Water Regulation (NPDWR, 40 CFR 141).

This certification is valid from May 16, 2026 to May 15, 2027. This is provided that your primary State’s certification remains current and the laboratory successfully analyzes the required proficiency testing samples. Please be reminded that you must notify Guam EPA in writing of any major change of personnel, equipment, methods and location within 30 days.

*Dângkolu na si Yu'us ma'åse'*

*Senseramente,*
