Dear Kuan Wen Chen:

Thank you for your application for renewal in the Environmental Laboratory Accreditation Program. Attached is a new Certificate of Accreditation covering the one-year period beginning May 1, 2025 and a current Scope of Accreditation.

Based on your laboratory's most recent sets of PT Study results, full accreditation is warranted for all applicable parameters. Your WA accreditation is based in part on your NYDOH and NVLAP accreditations.

**The following parameters have been withdrawn at the laboratory's request:**

- **Cryptosporidium by EPA 1623 (Filtration/IMS/FA) in Drinking water and Non-potable water**
- **Giardia by EPA 1623 (Filtration/IMS/FA) in Drinking water and Non-potable water**
- **Total coliform/E.coli –detect by SM 9223 B Colilert 18 PA in Drinking water**
- **E.coli –count by SM 9222 D+G (mFC/NA Mug) in Drinking water and Non-potable water**
- **Fecal coliform –count by SM 9222 D+G (mFC/NA Mug) in Drinking water and Non-potable water**

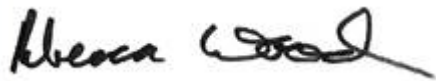

**Heterotrophic Bacteria by SM 9215 B in Drinking water has been corrected from R2A to PCA.**

As a reminder, continued participation in the Ecology Lab Accreditation Program requires the lab to:

- Submit a renewal application and fees annually
- Report significant changes in facility, personnel, analytical methods, equipment, the lab's quality assurance (QA) manual or QA procedures as they occur
- Participate in proficiency testing studies semi-annually, with the following exception: For each parameter where all PT results were satisfactory, you are required to submit only one PT result over this next year, and in subsequent years, as long as the results are satisfactory.
- Submit copies of current third-party Scopes of Accreditation when they are available.

If you have any questions concerning the accreditation of your lab, please contact Ruth Powers-Piccone at (360) 280-9288, or by e-mail at [rpic461@ecy.wa.gov](mailto:rpic461@ecy.wa.gov).

Sincerely,
