RE: Laboratory Certification
Lab ID: 41245
Eurofins Built Environment Testing East-NJ
Out of State
Acceptance
Laboratory Certification

Dear Ms. Trieu:

This office is in receipt of your laboratory's certificate of accreditation and acceptable proficiency testing results for Asbestos (EPA Methods 100.1 and 100.2) analysis in drinking water that was issued by the New York State Department of Health, Wadsworth Center.

Based on this information and pursuant to Ohio Administrative Code (OAC) Rule 3745-89-02, the analytical results of Asbestos analysis performed by your laboratory on drinking water samples are acceptable to the Ohio EPA for compliance monitoring purposes. This acceptance is effective for Asbestos (EPA 100.1 and 100.2) and will expire on the expiration date given on the laboratory certificate issued by the New York State Department of Health, Wadsworth Center, **April 1, 2027**.

Your laboratory is required to provide this office with copies of any letters or reports, as they become available, which relate to your acceptance status for Asbestos analysis as determined by the New York State Department of Health, Wadsworth Center.

Your laboratory must maintain satisfactory performance for Asbestos analysis, including the reporting requirements as specified in OAC Rule 3745-89-08, and for laboratory certification requirements to ensure continued acceptance of your drinking water Asbestos analytical data by the Ohio EPA.

Please contact Brian Tarver, Division of Drinking and Ground Waters, at Brian.Tarver@epa.ohio.gov or (614) 644-2752 for information on reporting results using the electronic Drinking Water Reports (eDWR).

If you have any questions, please contact me at (614) 644-4222 or DWLabCert@epa.ohio.gov.

Sincerely,

Julie Spangler
Supervisor, Laboratory Certification Section
