

# ISED Certification

## Certification process (extract)

---

## ISED Certification

---

Kind of doc.:  
Level V  
PI\_Cert\_7.1\_09

### Modification of certified equipment

Modifications to certified radio apparatus may require re-certification. The applicant shall consult the FCB when certified equipment has been modified to confirm the validity of its certification.

### Certification retention and audits

The FCB and ISED shall conduct post-certification audits in order to ensure continuing compliance (→ CB-02 and RSP-100). After completion of an audit or, at the latest, by January 31<sup>st</sup> of each year, ISED has to be notified through electronic filing of audits conducted in the previous year.

### Abbreviations

FCB	Foreign Certification Body
Eurofins	Eurofins Product Service GmbH
CB	Certification Body
ISED	Innovation, Science and Economic Development Canada/Industry Canada
RSP	Radio Equipment Certification Procedure
RSS	Radio Standards Specification
BETS	Broadcasting Equipment Technical Standard
