SAFETY DATA: JULY 2017

In July one accident with stop occured in Poland. It was during a pause when a colleague dropped a glass of tea and burn a leg. Well, what can we say... Most of the accidents happens when we don't really expect... However, there were taken some actions as you can see on the next page.

PORTUGAL		POLAND
Accidents/ Incidents	Asbestos Incidents = 0 Accidents at work = 0 Risk situations = 0	Asbestos Incidents = 0 Accidents at work = 0 Risk situations = 0 Accidents at work with days off = 1
KPI	TG = 0 TF1 = 0 TF2 = 0	TG = 1.3 TF1 = 144.3 TF2 = 144.3
Trainings	Week 27 - Individual Protection Equipment: Gloves Week 28 - High and low Asbestos Risk/ De-contamination Week 29 - Signaling Week 30 - Emergency equipment	1. Short Medical Training — One Safety Lesson 2. Short Training—Asbestos Risk and Chemical Risk

Safety First!

LAST NEWS

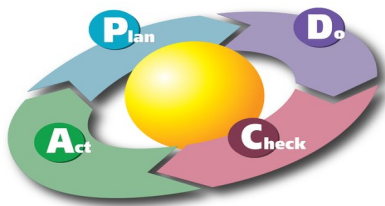

PORTUGAL

The implementation of OHSAS 18001 until the end of the year it's a goal for our lab that is approaching very quickly.

The time doesn't stop and our internal audit is coming next month.

We are working hard to improve everyday the safety condition in our lab.

The management systems are always in progress, the famous continuous improvement that keep us in constant movement!

ONGOING/ FUTURE PROJECTS

During the next months finally we are going to change all the chairs in the lab. Ergonomy in our working stations are one of our challenges and targets!

Be in tune with us to learn more!

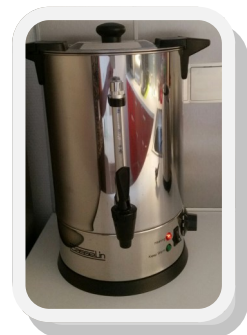

POLAND

After a unusual work accident with stop, we decide to implement some actions that we hope that avoid the risk of burn with hot drinks in the canteen. We left you some ideas that you can prevent this kind of risks.

1. Buy proper (safe) cups

2. Buy water jar.

3. Buy water - gel.

4. Purchase and install the small borders on the edge of the table.

REMEMBRE, BETTER IS ALWAYS POSSIBLE!
