

Job opportunity: (Sr) Associate Scientist – Formulation Developer

Eurofins Amatsigroup is one of the leading CDMOs in Europe providing high-quality, customized drug development solutions for specialty and biopharma clients. Our focus is to support clients on the earliest phases of their development pathway (from API to the clinical packaging).

Its Belgian subsidiary, Eurofins Amatsigroup NV, is based in Ghent, offering a **complete drug development package for new drug entities (biological and chemical) up to early clinical phases** to third parties to help them in speeding up the development and manufacturing of their drugs:

- Drug substance biological process and analytical method development and production, including GMP manufacturing. The principal technological expertise is production and purification of recombinant proteins derived from microbial and eukaryotic systems, for research purposes and toxicological studies as well as for clinical trials, including formulation development and stress stability studies. The company also has extensive expertise in the manufacturing of viruses and living cells for vaccine purposes and in-depth knowledge of working under pharmaceutical and GMP quality requirements.
- Drug product development of new drug candidates focusing on difficult to formulate drugs that are in preclinical, phase I or phase II clinical development. The company offers a full suite of drug development services encompassing preclinical development, preformulation development, formulation development, analytical development, dosage forms development, scaling-up and GMP manufacturing of chemical and biologics drug candidates.

Eurofins Amatsigroup NV develops and produces non-sterile and sterile biologics (drug substance and drug product) and chemicals (drug product) in preclinical and early clinical development phases.

With approximately 400 staff worldwide, we operate out of 10 sites either in France and Belgium. To support our ambitious growth plan, we are today looking for a (Sr) Associate Scientist – Formulation Developer for our site in Ghent, Belgium.

Position: (Sr) Associate Scientist – Formulation Developer

Position/Responsibilities

Eurofins Amatsigroup NV wishes to enforce its team with a **(Sr) Associate Scientist – Formulation Developer**.

We are looking for a person that reports to the Pharmaceutical Development Manager of Eurofins Amatsigroup NV in expanding the growth of the company.

His/her main responsibilities are:

- You support the development of new drug delivery formulations for different applications in the medical field.
- You will be working on both solid and liquid formulations in function of the needs within the company. Solid formulations being: powders, tablets and capsules for both immediate and controlled release, and liquid formulations being: oral solutions, emulsions and suspensions, and formulations for parenteral administration.
- The function consists of carrying out experimental work in a high tech environment together with data interpretation and reporting of the performed experiments.

Competences and education:

- You have a Bachelor Degree with scientific orientation (Pharmaceutical and biological lab technology, chemistry). You have a strong interest in drug research and development and the associated production technologies.
- You work accurately, you are technically minded and able to work independently after training in the matter entrusted to you.
- Experience in a pharmaceutical R&D or production environment is an asset.
- You are flexible.
- You have experience with software such as Word and Excel.
- You can communicate in English and Dutch.

We offer you:

- We offer a versatile and challenging job with a permanent contract.
- You will join a young, dynamic and experienced team of technologists, analysts and project managers.
- Personal development through learning on the job and additional internal and external trainings.
- A market oriented compensation.
- Site: Technologiemark, Zwijnaarde - Gent, Belgium.

Interested in this challenging job?

- Please send your application including CV and motivation letter via e-mail to Alexandrine Abbeloos (a.abbeloos@amatsigroup.com) and you will be contacted soon.
