

ATEX Directive 2014/34/EU

Equipment and Protective Systems intended for use in potentially explosive atmospheres

Eurofins Electric & Electronic Product Testing AG Notified Body of the European Union tests and certifies electrical and non-electrical equipment for use in potentially explosive atmospheres. Our services enclose all steps, beginning with standard consultation before and during the development process up to the final tests and certification of the product and the installation of requested production Quality Assurance Modules.

- Standard and Directive interpretation and consultation
- ATEX Training
- Assessment of pre-projects
- Development attendance
- Tests according to harmonized CENELEC Standards and ATEX Directive
- Electrical and non-electrical equipment
- Protection from gas and dust explosion
- Conformity statements and certificates acc. to Annexes III, IV, V, VI, VII, VIII and IX
- Safekeeping of ATEX documentation according to 94/9/EC Art. 8.1(b)(ii)

Accreditation

Eurofins Electric & Electronic Product Testing AG is accredited by SAS (Swiss Accreditation body) as well as Notified Body (No. 1258) of the European Union and IECEx Test Lab and Certification Body. In those functions we issue national, European and internationally accepted Certificates.
