

Eurofins Eichrom Radioactivité

member of

eurofins

Nuclear

**Eurofins Nuclear
Competence Centre**
for all your analyses

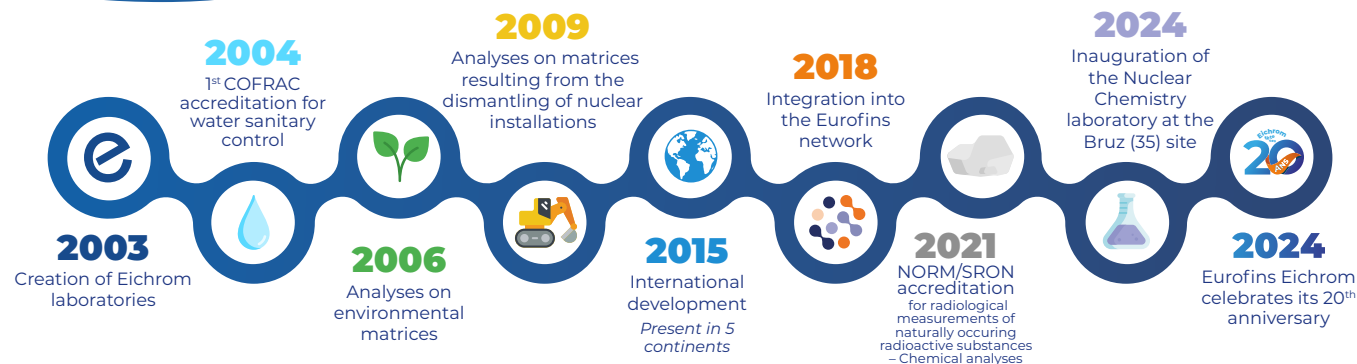

Radioactivity

Nuclear
chemistry

Our quality references

Accreditations & approvals

Accreditation ISO/CEI 17025 – COFRAC
Scope available on www.cofrac.fr

ASNR
Scope available on www.asnr.fr

European accreditation infrastructure, that guarantee the equivalence between the different accreditation systems over Europe

Ministry of Health
Detailed scope available on request

ILAC (International Laboratory Accreditation Cooperation) recognizes at international level the members of EA

Our analyses of radioactivity and chemistry

Nuclear facilities

Dismantling (metals, concrete, metal parts)
Waste characterization (liquid, solid) and gaseous emissions
Radiation protection (smears)

Environmental monitoring & radioecology

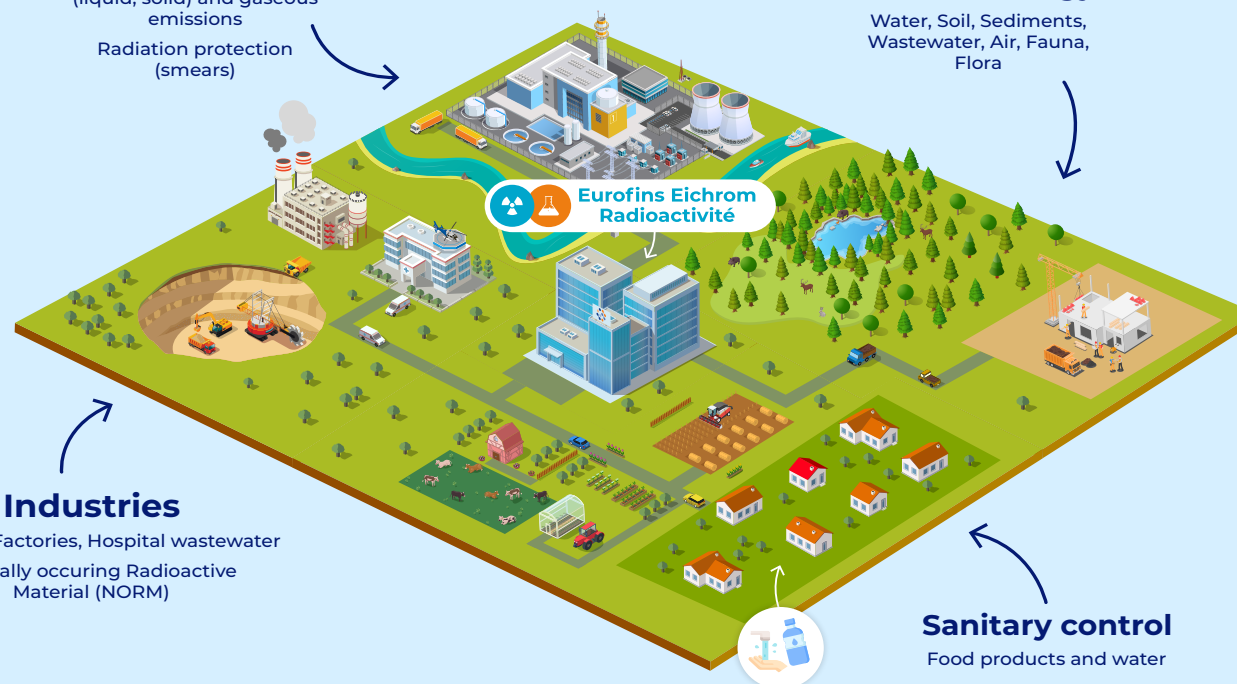

Water, Soil, Sediments, Wastewater, Air, Fauna, Flora

Industries

Quarries, Factories, Hospital wastewater
Naturally occurring Radioactive Material (NORM)

Sanitary control

Food products and water

For your Radioactivity and Chemical analyses

Eurofins Eichrom Radioactivity **today:**

30
employees

2
areas of expertise
combined at the
Bruz laboratory

30
countries
(5 continents)

> 15 000
samples analysed
each year

The eurofins **network around the world:**

63 000
employees

950
laboratories

60
countries

200 000
analytical methods

€6.9
billion turnover
in 2024
